

Your Honor,

Thank you for the opportunity to speak today. I stand before you not just as a step-parent, but as someone deeply committed to this family and to the well-being of this wonderful child. From day one, I embraced the joys and responsibilities of being a guide, teacher, and most importantly, a source of unconditional love.

This journey has filled our lives with countless cherished memories. From helping with homework to cheering at soccer games, and from quiet moments at bedtime stories to celebrating milestones, each day has solidified the bond we share.

Our family is built on love, trust, and respect. I am here today to formalize that which already exists in our hearts and home. Adoption is not just a legal step; it is the joyful acknowledgment of the relationship we have nurtured together.

Thank you for considering this request. I am honored to continue this journey as a legal parent and to provide the love and support [Child's Name] deserves.

Thank you.
