

Ladies and gentlemen,

First, I want to express my gratitude to the committee and everyone who has supported me throughout this journey. Although I did not receive the outcome I had hoped for today, I want to emphasize that this is not the end, but rather a pivotal learning moment.

I acknowledge the areas of my thesis that require further work, and I am committed to addressing these concerns with diligence and determination. Every challenge is an opportunity for growth, and I intend to use this experience to strengthen my research.

Thank you for your constructive feedback, which will guide me as I refine and enhance my work. I am resilient and prepared to face this head-on.

Your support and insights are invaluable, and I look forward to presenting an improved version in the future.

Thank you.
