

Esteemed delegates,

I rise before you today on behalf of [Country/Organization Name] to express our unequivocal objection to the proposed resolution set forth by [Other Country/Organization Name]. While we acknowledge the intentions behind this proposal, we believe it presents significant concerns that must be addressed.

Our primary objection lies in the resolution's potential impact on [specific issue or sector], which could inadvertently undermine [principles, rights, or agreements]. We are committed to collaborative and constructive diplomacy; therefore, we urge all delegates to consider amendments that would align with our collective international commitments and norms.

In the spirit of cooperation, we propose to engage in further dialogue and work towards a balanced and mutually acceptable resolution. I respectfully invite fellow delegates to join us in refining this proposal to better reflect our shared objectives.

Thank you for your attention.
