

Ladies and gentlemen,  
Thank you for gathering here today. Our topic is academic excellence, and I want to emphasize the power of a growth mindset. Imagine your mind as a muscle. Like muscles, our abilities grow stronger with effort, practice, and learning from mistakes. Excellence is not a destination but a journey of continuous improvement. Start by believing in the power of "yet." You might not master a subject yet, but with persistence, you will. Embrace challenges as opportunities to learn and grow. Each setback is a setup for a comeback. Collaboration is key. Share your insights and learn from your peers. Together, we can achieve more. Remember, intelligence is not fixed. With a growth mindset, your potential is limitless. Strive for progress, not perfection. Celebrate small victories along the way. Let's pledge to continue learning, growing, and supporting each other on this journey to academic excellence. Thank you.
