

Good morning, students!

Today, I want to talk to you about something very important: safety protocols. These are the rules that help keep us all safe and secure while we are here at school.

First, let's talk about emergencies. In case of a fire drill or real fire, remember to stay calm, quickly line up, and follow your teacher to the designated exit. Always pay attention and listen carefully to your teacher's instructions.

Second, make sure to be careful when moving between classes. Walk, don't run, in the hallways to avoid accidents. Also, keep an eye out for wet floors or any hazards and report them to a teacher immediately.

Next, when using the internet or our school computers, follow our digital safety rules. Never share personal information, such as your address or phone number, online. If you come across anything suspicious or uncomfortable online, tell an adult right away.

Finally, remember to always treat each other with respect and kindness. If you see someone being bullied, or if you feel bullied, please talk to a teacher or a trusted adult immediately. We are here to help, and together, we can keep our school a safe place for everyone.

Thank you for your attention, and let's all do our part to follow these safety protocols every day!
