

Good morning, everyone. Thank you for taking the time to be here. Today, we'll go over some important safety information to ensure everyone's well-being during our operations.

First, always be aware of your surroundings. Look out for any potential hazards like wet floors, loose cables, or moving machinery. If you spot anything unsafe, please report it to your supervisor immediately.

Next, remember to wear all required personal protective equipment, such as hard hats, safety glasses, and gloves. This equipment is crucial for protecting you from potential injuries.

In case of an emergency, such as a fire or evacuation, please follow the nearest exit signs and proceed to the designated assembly point outside. Stay calm and assist others if needed.

Please ensure you know where the first aid kits and fire extinguishers are located. Familiarize yourself with how to use them in case of an emergency.

Lastly, remember that safety is everyone's responsibility. If you see something, say something. Let's work together to maintain a safe and healthy environment for all.

Thank you for your attention, and let's have a safe day.
