Good evening, esteemed faculty, proud parents, and soon-to-be graduates of the engineering class of 2023.

It is a great honor to stand before you today as you prepare to embark on your professional journeys. Today, you mark the culmination of years of dedication, perseverance, and the pursuit of knowledge in the ever-evolving field of engineering.

As you step into this world as engineers, you are not only problem solvers and innovators but also custodians of ethical responsibility. You hold the power to shape the future, and with that power comes the responsibility to ensure that your work contributes positively to society.

Remember, the decisions you make in your careers will have far-reaching impacts. As you design and build, consider the ethical implications of your creations. Strive for sustainability and inclusivity, ensuring that your work benefits all of humanity while preserving our planet for future generations.

Embrace integrity, transparency, and honesty in all your dealings. Uphold the trust that society places in you, as engineers hold a unique position to influence change. Let your work reflect the highest standards of ethics and responsibility.

Congratulations on your achievements. We look forward to witnessing the positive contributions you will make, shaping a brighter, more equitable future for all.

Thank you.
