

Ladies and gentlemen, friends and neighbors,  
We gather here today because we care deeply. We care for our families,  
for our communities, and for the future of our nation. We are here  
because we believe that access to healthcare should be a right, not a  
privilege.

Every day, countless people in our country are making impossible choices-  
between medicine and food, between doctor visits and paying rent. These  
choices are real, and they weigh heavy on the hearts of so many. We're  
here because we know it doesn't have to be this way.

Imagine a system where everyone, regardless of their background or  
income, can see a doctor without fear. A system where our grandparents  
can receive the care they need without leaving their loved ones in debt.  
This vision of compassionate, comprehensive healthcare is within our  
reach.

We stand here, raising our voices not just for ourselves, but for all  
those who can't be here today. Let's work together, with compassion and  
determination, to make change happen. Because every life matters, and  
everyone deserves the dignity of health and hope.

Thank you.
