

Ladies and gentlemen,

We stand here today not just as individuals, but as a collective voice demanding justice. Our healthcare system is broken. It prioritizes profit over people, and in the world's richest nation, this is unacceptable. Every day, families are forced to choose between paying for life-saving medications or putting food on the table. This is not just a healthcare issue; it is an economic crisis. When our loved ones can't afford the care they need, we all pay the price. Access to healthcare should not depend on the size of your wallet.

We demand a system that places humanity above dollars, equity above profits. Imagine a world where everyone, regardless of their financial status, receives the care they deserve. A world where economic justice and healthcare for all are not just dreams, but realities.

Together, we can build this world. Let us raise our voices, demand change, and fight for a future where health is a human right, not a privilege. Thank you.
