

Ladies and gentlemen,

Today, we stand united to tackle one of the most pressing issues of our time: plastic waste. Every year, millions of tons of plastic enter our oceans, choke our wildlife, and contaminate our planet. It's time to act, and we must act now!

We cannot wait for someone else to solve this problem. Each of us here has the power to make a change. Let's start by refusing single-use plastics. Bring your own bags, bottles, and straws. Encourage your friends and family to do the same. Together, we can drastically reduce our plastic footprint.

We call on businesses to step up. Enough with unnecessary plastic packaging! Support companies that prioritize sustainable practices. Together, we demand better options and greener solutions.

Policy makers, listen to our voice! Implement stricter regulations on plastic production and disposal. Fund research for sustainable alternatives. We need policies that protect our planet and our future. Let's take to the streets! Share our message. Start conversations. Make our voices heard loud and clear. The time for change is now!

Together, we can reduce plastic waste. Together, we will create a cleaner, greener world for generations to come. Thank you!
