Hey [Partner's Name],
So, here's the thing. You know how we're always upgrading our gadgets and optimizing our workflow? Well, I was thinking it's time we take our relationship to the next level, too. We've debugged countless issues together and synced perfectly, better than any app ever could.
As we code this life together, will you be my forever teammate and join me in this amazing adventure? Swipe right into forever with me. Will you marry me?
