

Dear Admissions Committee,

Thank you for the opportunity to apply to your esteemed medical school and for considering my application. While I am disappointed to learn that I have not been offered a place in your program this year, I am grateful for this learning experience.

Receiving this decision has motivated me to further enhance my qualifications and continue to pursue my dream of becoming a physician. I am committed to identifying areas for improvement and will take this time to gain more experience, deepen my understanding, and strengthen my skills in the medical field.

Thank you once again for your consideration. I hope to apply again in the future as a more competitive candidate.

Sincerely,

[Your Name]
