

Sure! Here's a simple example of a clarification speech about grading criteria for students:

"Hello everyone,

Today, I want to clarify the grading criteria for our course to ensure you all understand how your work will be evaluated.

Firstly, your final grade will be made up of three main components:

1. **Assignments (40% of your grade):** Throughout the semester, you'll have several assignments. Each one is important, so make sure to submit them on time. They will be graded based on accuracy, creativity, and completeness.

2. **Quizzes (20% of your grade):** We will have a few quizzes to test your understanding of the material. They will be short but cover essential topics. It's important to review your class notes regularly to prepare.

3. **Final Exam (40% of your grade):** At the end of the course, there will be a comprehensive exam. It will cover everything we have learned, so consistent study habits will be key to success.

In addition to these components, remember that participation and attendance can influence your grade positively if you're on the borderline between two grades. Always ask questions if you're unsure about the material--I'm here to help!

If you have any questions or need further clarification, feel free to reach out during office hours or send me an email. Let's work together to make this a successful semester for everyone.

Thank you!
