Sure! Here's a simple example:

Manager: "Okay team, we need to complete the project by the end of the month. Sarah, you're in charge of the presentation, and Tom, you'll handle the data analysis."

Sarah: "Just to clarify, you want the presentation to include the project timeline and budget details, right?"

Manager: "Yes, exactly. Include both the timeline and budget."

Tom: "And for the data analysis, should I focus on the current quarter's figures or include comparisons with the last year as well?"

Manager: "Good question, Tom. Please include comparisons with last year too."
