Certainly! Here's a simple example of a clarification speech during an online training session:

---

"Hi everyone, I want to take a moment to ensure everything is clear regarding the task I just explained. If you're confused or need me to repeat anything, now is a great time to ask.

First, remember that the goal of today's session is to understand how to use the new software tool effectively. Please ensure you've downloaded the software using the link provided earlier in the session.

Let's quickly recap the main steps:

1. Open the software and log in using your credentials.
2. Once logged in, navigate to the dashboard to access your settings.
3. Remember to customize your user profile by updating your preferences.

If any of these steps are unclear or if you have not been able to download the software, please let me know. You can unmute yourself or use the chat option to ask questions. It's important to me that everyone feels confident before we move on.

Thank you!
