

Certainly! Here is a simple example of a speech for clarifying professional development expectations for teachers:

---

Good afternoon, everyone,

Thank you all for joining this session on professional development. As educators, our growth not only impacts our own career paths but also enhances the learning experiences of our students.

To clarify our expectations, we envision a professional development program focused on three key areas: collaborative learning, technology integration, and student engagement strategies. We expect each of you to participate in at least two workshops per semester in these areas.

Additionally, we'll be organizing monthly team meetings for sharing best practices and insights gained from these workshops. We encourage open communication and support as we strive to integrate these learnings into our teaching methods.

Remember, your development is crucial to our school's success. Should you have any questions or need assistance in selecting workshops, please don't hesitate to reach out.

Thank you, and let's continue to inspire and grow together.
