

Ladies and gentlemen,

Thank you for gathering here today. I understand there have been many questions regarding the new healthcare policies, and I am here to provide some clarity.

Firstly, the policy changes will focus on improving access to healthcare. This means more facilities in rural areas and extended hours for clinics in urban regions. Our goal is to ensure that everyone can receive the care they need, irrespective of where they live.

Secondly, we are introducing a new digital health platform. This will allow patients to schedule appointments, access medical records, and receive consultations remotely. It is designed to make managing your health easier and more efficient.

Lastly, we're increasing the coverage provided under insurance plans. This will include essential medications and preventive services, aimed at reducing out-of-pocket expenses for everyone.

We understand change can be challenging, but these policies are being implemented with your well-being in mind. We are committed to ensuring a smooth transition and welcome any questions you may have.

Thank you for your attention and support. Together, we can build a healthier future for all.

Thank you.
