

Thank you for considering my application for the nursing position. I believe that being proactive and solution-oriented is crucial in nursing. For example, in my previous role, I noticed that patient discharge times were often delayed, which impacted bed availability. I initiated a project with the discharge planning team to identify common bottlenecks and implemented a streamlined checklist. This not only reduced the average discharge time by 20% but also improved patient flow and satisfaction. I am eager to bring my proactive approach and problem-solving skills to your team to improve patient care and operational efficiency.
