

Hello everyone,

Thank you for having me here today. I am excited about the opportunity to join this esteemed high school. My name is Alex, and I'm currently a middle school student at Lincoln Middle.

As I look towards the future, I see high school as a crucial step in achieving my aspirations. I'm particularly interested in your programs in science and technology, as I plan to pursue a career in environmental engineering. Your school's emphasis on innovation and hands-on learning aligns perfectly with my goals.

I am eager to contribute to the school community through my participation in clubs and extracurricular activities. Whether it's joining the robotics team or collaborating on sustainability projects, I believe there are numerous opportunities here that will help me grow both academically and personally.

In the next few years, I plan to immerse myself in challenging courses and nurture my passion for problem-solving. My aim is to develop skills that will prepare me for college and beyond, where I hope to make significant contributions to solving global environmental issues.

Thank you for considering my application. I look forward to the possibility of learning and growing at your school.

Sincerely,

Alex
