

Certainly! Here's a simple speech for a hospitality job interview focusing on sustainable practices:

---

Hello,

Thank you for the opportunity to interview for this position. I am excited about the possibility of joining your team and contributing to a sustainable future in hospitality.

Sustainability in hospitality is not just a trend but a responsibility. I believe that by implementing eco-friendly practices, we can enhance guest experiences while reducing our environmental footprint. For example, at my previous job, I initiated a project to reduce energy consumption by switching to LED lighting and implementing a towel reuse program. This not only helped reduce costs but also aligned with our guests' growing interest in supporting sustainable businesses.

Furthermore, I helped organize workshops to educate staff on sustainable practices, ensuring everyone understood their role in our eco-initiatives. This collective effort not only improved team morale but also enhanced our brand image.

I am keen to bring my passion and experience to your team, working together to create memorable and sustainable guest experiences. Thank you for considering my application.

---

I look forward to hearing your feedback and discussing how we can work together towards a greener future.
